“ *I am Jerry Nelson and Bruce and I were best friends growing up in Elba, Al. He was my neighbor and we were together daily in our childhood. He was a special young man and a truly bright young man. As young adults, our paths took us in different directions, he to Auburn and an engineering degree and me 27 years in the Air Force. We were able to reconnect only a few years ago and it meant the world to me. I hate to hear this news and am glad he is no longer in pain or suffering. I hold great memories of growing up together and treasure all those wonderful times we enjoyed. I know he is a better place and was very proud of his children. I hope to one day meet them and share my memories of their father. God Bless!*
