“ *I was Jone's boss in Guam. He and I grew very close over the years and it bonded into a brotherly relationship. He and I would often call to check in on each other. He would just call to tell me happy new years or merry Christmas... never missing a holiday or moment to talk sports. He knew a lot about sports which always fascinated me. After the beginning of the year he contacted me about some sad news he had heard. I would check in on him over the next few weeks and month. After not hearing from him, I decided to look him up and found this page. I'm very heartbroken and sad. He was such a good person and friend. I will miss hearing your country twang voice Jonesy... Thank you for all of the kind moments and words you told me through out the years. I will never forget the laughter we shared back in Guam. You are and will be greatly missed brother!!!! (Heartbroken)*

If anyone would like to know more about him, please feel free to contact me:
