“ *Cousin Johnny a memory I'd like to share - I also remember the Pinto car you drove, but what was not mentioned, you had no drivers license and the Pinto was not registered but you it drove anyway. You did it your way! I share the same feelings about you as other family and friends have spoke on and we couldn't ask for a better person. We love you.*

Wished I could be there.

Cousin Kate

“ I have so many fond memories of my cousin Johnny. He was such a good hearted person who would do anything you ask. I remember he was ask to come sit with my mother, his auntie Princess, and he didn't hesitate he stayed with her and didn't move until someone else was there. We are first cousins that relate more like brothers and sisters. When younger, some of the cousins were playing outside, one particular day one of the cousins broke someone's window and was trying to get around telling the truth but Johnny said "no cuz you have to tell the truth just like it happened". That's the kind of person he was. Another good memory - Johnny had an old Pinto car and you could hear that car coming a mile away. People use to say "hear come Johnny " and sure enough it would be Johnny in his Pinto. Johnny I wish I could be there. Please believe, I am there in spirit.

Missing you - your cousin Agnus

“ We're sorry to hear about the home going of Johnnie and we'll like to send our condolences. We've had some great times throughout the years and he was a nice and friendly person. We're going to miss him dearly, as he would affectionately always say, " ole boooy". " RIP Johnnie. The Tyner and Carlisle Families, Beaugard,AL.

“ To my Brother Johnny -
Being your older brother I remember taking care of you making sure you were safe. You always listened and never gave an argument. As we grew older this did not change. We never had a disagreement, always tried to be respectful and understanding of one another. As the years passed, I moved on and came to Connecticut for better opportunities. I always returned home at least once a year and would always try and get you to come back with me but your choice was always to stay home with Mom Tensie. Even though we only saw each other once a year we continued to give understanding and respect. I remember sometimes I would say something that you didn't like. I could look into your eyes and instantly no I had to make it right and I did because I knew I had too. You always looked up to me and I always tried to be there as your big bro. I wish I could be there for you now but my health is not the best. But no that I love you and will miss you.

From your brother L. B.

“ I'll never forget my Brother-In- Johnny. The first time we met I remember him saying "come on in here sis" as though this was not our first meet. We all eventually gathered outside. Johnny never once ask me anything personal to make me feel unwelcome. He did however ask if I wanted a beer and I said yes. His beer of choice at that time was Natural Light I'll never forget and that evening ended with lots of jokes and laughter. During this same visit Johnny got to meet his nephew, Lover Thomas Jr., eight years old at the time and for whatever Johnny's reasons he never forgot his nephew and from that time right up to two months ago whenever we spoke over the phone Johnny never ended the conversation or hung up before asking "how that boy doing" and that boy is now a grown man. That's the kind of person Johnny is, humble, compassionate and REAL. Missing you already- your sis Gladys.
